PROFESSIONAL SUMMARY

Aspiring **Junior AI Engineer Trainee** with a strong foundation in Python, HTML, CSS, and JavaScript, along with a growing interest in Artificial Intelligence and Generative AI. Hands-on experience developing responsive web applications and AI-focused projects, with practical knowledge of Git, GitHub, and VS Code. Passionate about building intelligent, user-centric solutions while continuously learning modern AI technologies, Machine Learning fundamentals, and software development best practices. A quick learner with strong analytical and problem-solving skills, seeking an entry-level opportunity to contribute to innovative AI solutions and grow as an AI Engineer.

EDUCATION

Sri Shanmugha College of Engineering and Technology

Expected May 2026

Bachelor of Technology (B.Tech) Information Technology

CGPA : 8.2

JKKM Metric Higher Secondary School

June 2021 – May 2022

HSC Percentage: 79%

TECHNICAL SKILLS

Programming Language: Python

Frontend: HTML5, CSS3, JavaScript.

AI & ML : Machine Learning, Deep Learning, Supervised Learning, Unsupervised Learning, Model Training, Model Evaluation.

Libraries Frameworks : NumPy, Pandas, Matplotlib, Scikit-learn.

Tools & IDEs : Google Colab, Git, GitHub, VS Code, IntelliJ IDEA, N8N, CursorAI, Copilot, Antigravity.

Design Basics : Canva, Photopea.

PROJECTS

MD Foodies Cafe Website [GitHub Repository](#)

- Developed a responsive product based website using HTML, CSS, and JavaScript.
- Implemented product listing, cart functionality, and basic checkout flow.
- Focused on clean UI design and responsive layouts for different screen sizes.
- **Tools:** HTML, CSS, JavaScript.

Music Recommendation App (Prototype) [GitHub Repository](#)

- Built a simple recommendation prototype suggesting music based on user preferences.
- Designed basic user interaction flow and recommendation logic.
- Worked on structuring frontend components for scalability.
- **Tech Stack:** HTML, CSS, JavaScript.

CERTIFICATIONS

Fintechgie Internship Program - Web Development

FEB 2025 - JULY 2025

- Gained hands on experience in building responsive web pages using HTML, CSS, and JavaScript.
- Worked on practical projects focusing on frontend development and real world use cases.

Introduction to Generative AI Learning Path – Google Cloud

2025

- Learned Generative AI, LLMs, and AI applications.
- Explored responsible AI and prompt engineering.

Certification-drive

- Participated in certification-based learning programs to strengthen technical fundamentals.
